

Symbio Alliance HACCP Training – Which Course is Right for Me?

This course is aimed at HACCP team leaders and also covers Internal Auditing

* Before you decide on a 2 or 3 day course, check your "supplier" or "program" requirements to determine the minimum days for HACCP training. For example, the SQF program requires 3 day training, while the Coles supplier program requires 2 day training.

Symbio Alliance is a Registered Training Organisation. Upon successful assessment, you will be issued with the following units of competency –

- MTMMP79C "Participate in ongoing development and implementation of a HACCP and QA system" from the Cert IV in Meat Processing (QA) stream **OR**
- FDFOPHCP3A "Participate in a HACCP Team" , FDFCORQFS3A "Monitor the implementation of quality and food safety programs" and FDFCORFSY2A "Implement the Food Safety Program and Procedures" and FDFTECCS4A "Control food contamination and spoilage" from the Food Processing Training Package
- If you successfully complete the "Verification, Validation and Auditing of a HACCP system" course you will also be issued with Internal Auditor qualifications.
